Welcome to our Murrayhill Dental! We realize that you have many options when it comes to dental providers, so we are pleased that you have chosen us! We are committed to providing you with high quality dental care in a compassionate and gentle manner.

At your first visit with us you can expect:

- Full set of dental x-rays.
- Careful evaluation of our current dental status and concerns.
- Comprehensive dental examination
- Oral Cancer Screening
- Periodontal Examination
- Consultation with Dr. Melodee Tran

If you have dental insurance, please bring your insurance card. We offer various payment options as well.

We do not offer silver fillings as a restorative option we choose composite (tooth colored) fillings. Silver fillings swell when they absorb the natural moisture in your mouth. This expansion can create a wedging effect in the tooth, which can fracture or break off tooth structure. Composite fillings are bonded in, natural looking, not made of any metals and require minimum removal of tooth structure to place. Please be mindful that many insurance companies will pay for composite fillings at a silver filling rate.

As part of our preventative dental care, we offer digital x-rays. Digital x-rays provide a quicker diagnosis and use 80% less radiation than conventional x-rays.

Please visit our website for more information about us and directions:
www.murrayhilldental.com.

We recognize the value of your time, unless there is an emergency situation, you can expect us to be on time for you. We ask for the same courtesy and if you need to reschedule appointment, we ask for 48 hours notice so we can offer this appointment to another patient.

Sincerely,

The Murrayhill Dental Team
